

## **IMPORTANT INFORMATION - PLEASE READ !**

The following information has been put together with your safety and wellbeing in mind. Please take a few minutes to read through this information and familiarize with the points mentioned.

### **1 FIRE SAFETY :**

- For your own safety and welfare please make yourself and all members of your family aware of the nearest means of escape in case of fire. Always leave the keys near main door for a quick exit.
- Please make a note of where the fire extinguisher/blanket is located in the villa
- NO SMOKING IN THE HOUSE !
- Please make sure that all electrical and gas appliances are turned off .
- A smoke detector has been fitted in your villa it is for your safety, please do not tamper with it.
- In the unlikely event of a fire that is out of control, do not try to put it out yourself. Leave the villa immediately, do not go back inside until you have been advised it is safe to do so.
- Dial the fire department on 112
- and contact your representative Holiday Rental Property Management

### **2 GAS:**

- Always keep a window open when using gas appliances as adequate ventilation is essential.
- Please, make sure all electric appliance is checked after you use them, check everything before you leave.
- Parents, please supervise children carefully around gas appliances.

### **3 TERRAS /BALCONIE**

- Please take extra care when using the balcony and terraces, do not sit or lean on the balcony edge/railings or balustrades.
- Children should be closely supervised at all times and please take extra care where balconies are furnished.

- We have placed safety stickers on all plate glass windows and doors, please inform your Representative if any stickers are missing.
- Always make sure that you as an adult look after the children, where they are and what they do!
- Do not hang towels on the balcony or balustrade, use the dry line!

#### **4 SECURITY**

- Please make sure that all doors, windows and shutters are locked before leaving the property and at night.
- Use the safety deposit box where fitted.
- Keep a separate record of your passport numbers, travelers, of your credit cards.
- Keep your car locked and never leave things on display in the vehicle.

#### **5 POOL SAFETY**

- **Diving is not PERMITTED !**
- **Please familiarize yourself with the pool depths.**
- **Please shower before entering the pool, as suntan lotions can affect the pool filter.**
- **Do not leave children unsupervised round the pool.**
- **Do not swim under the influence of alcohol/drugs.**
- **Do not take glasses out to the pool area.**
- **Please note that floor tiles, both inside and out can be slippery when wet, please take extra care and do NOT RUN !**

#### **6 GENERAL**

- Due to differences in the electricity supply the circuit can often trip. To restore the power, the electricity fuse box is generally located near the main door, if unsure please contact your Representative.
- Remember when using the air conditioning all doors and windows must be closed in order for it to function properly.

- Please note if air conditioning is not included in your holiday price, is payable to the agent at the start of usage.
- As we have a hot climate, we suggest to avoid insects please remember to avoid leaving crumbs, wipe up any spillages immediately and remember to correctly store your food and frequently dispose of your rubbish.
- Select waste, glass, paper, green waste in the dumpsters at the street, if you go out the gate 50 meters to the right, thank you
- Please do not remove parasols from the premises. Keep closed when not use to avoid damage.
- The villa must be vacated at 10.00am on the day of departure.
- Keep in mind that you have neighbors so watch the music level and voice level.
- In case you don't take notice of this, we will be forced to remove you out of the house.
- Please dispose of any rubbish on your departure and leave the villa as tidy as possible, thank you !
